## Your product:

## 10-4H22.1036P Single-LED

| <b>OPERATING-/INDICATION PART</b> |   |
|-----------------------------------|---|
| Illumination colour:              | Blue  |
|                                   |   |
| ELECTRICAL CHARACTERISTICS        |   |
|                                   |   |
| Operating voltage:                | 110 V AC/DC   |
| Operation current:                | 2 mA -30%/+25%  |
| Lumi. Intensity:                  | 4 x 86 mcd  |
|                                   |   |
| MECHANICAL CHARACTERISTICS        |   |
|                                   | 0.002.kg  |
| Weight:                           | 0.002 kg  |
|                                   |   |
| CERTIFICATE                       |   |
| REACH:                            | REACH compliant   |
| RoHS:                             | RoHS compliant  |
|                                   |   |
|                                   |   |
| OTHER                             |   |
| Short Description:                | Single-LED, BA9s, Blue, 110 V AC/DC   |
| Kind of illlumination:            | Multi-LED EN 50155  |
| Hints:                            | A suitable LED remover Part No. 700.006.0<br>The luminous intensity stated is for when used with DC<br>Electrical and optical data are measured at 25 °C<br>The specified 72 and 110 VAC/VDC versions are built with a bridge rectifier<br>The specified 72 and 110 VAC/VDC versions are built with a protection diode<br>In case one LED fails, the other pair of still functioning LED is working. The light<br>output then is half in order to indicate the malfunction and shows this way the<br>need for replacement<br>Luminosity and wave length variations caused by LED manufacturing processes<br>may cause slight differences regarding the illumination. The customer has to<br>decide what resistor shall be used to the LED |
