

# Actuator

51-252.0264 Distribution by DigiKey

## 51-252.0264 Actuator

Front dimension:  $\emptyset$  24,5 mm

Front form: Round

**MOUNTING** 

Design: Raised

Mounting type: Panel mounting

#### **OPERATING-/INDICATION PART**

Lens colour: Yellow

Lens material: Plastic

Lens illumination: Non illuminated

**Lens shape:** Mushroom-head

**Lens optics:** opaque

### **ELECTRICAL CHARACTERISTICS**

Switching voltage and switching 100 mA at 42 VAC/VDC

current:

Contacts:

2 NC

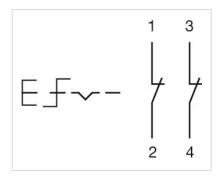

Switching rating: 42 V AC @ 0,1 A

#### **MECHANICAL CHARACTERISTICS**

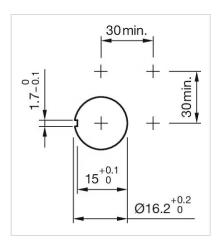

**Terminal:** Universal terminal, 2 x 0.5 mm

Contact material: Gold

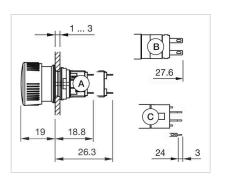

| Switching action:      | Maintained                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Switching system:      | Low-level element                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Switching system:      | This low-level switching element was designed for switching low powers in electronic circuits. The mechanism assures reliable switching of loads ranging from a few $\mu A/\mu V$ up to 100 mA/ 42 VAC/DC. Single-break momentary contact, as normally open or normally closed with 4 independent points of contact. 2 momentary contactsper switching element; combination of normally open and normally closed is possible. Special features are the long life, extremely short rebound time and stable contact resistance. |
| Release type:          | Twist to unlock                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Mechanical lifetime:   | 1 Mil. cycles of operation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Operating force:       | 18 21 N (depending on the switching element)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Operating Travel:      | 3 mm                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Tightening torque:     | Fixing nut max. 0.5 Nm                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Terminal details 1:    | The universal terminals permit these units to be mounted on printed circuit boards (PCB). These terminals can also be used as soldering or plug-in terminals. For these terminals we can also supply a plug-in base which, when soldered on to the board, enables the switch to be plugged in.                                                                                                                                                                                                                                |
| Weight:                | 0.011 kg                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| AMBIENT CONDITION      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| IP front protection:   | IP65, according to DIN EN 60529                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Operating temperature: | – 25 °C + 55 °C                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Storage temperature:   | – 40 °C + 85 °C                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
